Start Your Semester Off Right!

Protect your computer

Any up-to-date Malware protection is better than none at all ☺☺

Out of date or expired malware protection software is like not having any protection ☹☹

Microsoft Windows 8.1 thru 10 come with Windows Defender included. Sometimes you do have to activate it.

Check these Free Anti-Malware protection options

AVG® FREE	**Microsoft® Windows® Defender**	**Malwarebytes ANTI-MALWARE**
AVG is a registered trademark	Microsoft, Encarta, MSN, and Windows are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.	

Protect yourself online

The best protection against viruses and other malware infections starts with the basic rules:
1. Make sure your virus protection and your Windows updates are current.
2. If borrowing or using someone else's removable storage media, make sure and scan the drive before opening it.
3. Only open attachments or emails from people you know and expect to receive emails or attachments.
4. Save attachments to a temporary location and scan them before opening.
5. Read carefully before you click. (look for misspelled words)
6. Mouse over any links to see the actual address and make sure it's legitimate before clicking

The SCC IT Department has technicians located at four of our campuses. If you need some one-on-one assistance, our technicians are available during these hours: We'd love for you to stop by!
